Ashley Country Christmas 2025 Sponsorship

The Ashley Country Christmas (ACC) is excited for the upcoming 2025 season, and for the partnership they are building with The Steam Railroading Institute (SRI). Soon the North Pole Express (NPE) pulled by the 1225 Pere Marquette steam engine will arrive in Ashley full of kids and adults ready to whisper their wishes in Santa's ear, play games, shop, ride vintage carnival games, build a toy in Santa's workshop and eat goodies from various vendors.

All of this takes time and funding to make it happen, from the decorations to the entertainment, and that is why we are asking for partners. The Steam Railroading Institute has generously donated North Pole Express tickets for this upcoming season; ride, to Ashley and back to Owosso, aboard the North Pole Express, the locomotive used in The Polar Express Movie.

Please take this opportunity to support ACC. Packages will be available on a first come, first serve basis. NPE tickets will go on sale to the public usually in July. This is an opportunity for partners to get tickets prior to the usual July release date.

ACC supports Ashley and surrounding area with community improvements and support. They have helped with the baseball field and sports teams, 4-H, dance teams and more. They have paid for a pavilion with more to come. We can't do this without community support
